PROFESSIONAL SUMMARY

AI Engineer and Flutter Developer with hands-on experience in Machine Learning, Deep Learning, Natural Language Processing, and Cross-Platform Mobile Application Development. Skilled in building AI-powered solutions, Flutter applications, REST API integration, Firebase services, and database management. Passionate about developing scalable, user-centric applications while continuously exploring Generative AI and AI Automation technologies.

EDUCATION

Mehran University of Engineering and Technology (MUET)

2021 – 2025

Bachelor of Engineering in Software Engineering (CGPA: 3.40/4.00)

Jamshoro, Pakistan

EXPERIENCE

Website Developer

Nov 2023 – Apr 2024

AGRICLIK Startup

Hyderabad, Pakistan

- Designed and developed the AGRICLIK company portfolio website using modern web technologies.
- Collaborated with the development team to implement responsive user interfaces and backend functionality.
- Maintained website performance, optimized content, and supported application development activities.

PROJECTS

Disease Detection System | *Python, Scikit-learn, Pandas, Streamlit*

- Developed a machine learning model to predict diseases using patient health data and clinical features.
- Performed data preprocessing, feature engineering, and model evaluation to improve prediction accuracy.
- Built an interactive Streamlit application that provides real-time disease prediction through an intuitive user interface.

Movie Recommendation System | *Python, FastAPI, NLP, TF-IDF, Scikit-learn*

- Developed a content-based movie recommendation system using Natural Language Processing techniques.
- Applied text preprocessing and TF-IDF vectorization to recommend similar movies based on user preferences.
- Built a FastAPI backend to deliver fast and accurate movie recommendations through REST APIs.

News App | *Flutter, Dart, Firebase, REST API*

- Developed a cross-platform news application using Flutter with a clean and responsive user interface.
- Integrated REST APIs to fetch and display real-time news across multiple categories.
- Implemented search, bookmarks, category filtering, and Firebase integration for an enhanced user experience.

Recipe Explorer App | *Flutter, Dart, Firebase, REST API*

- Built a Flutter application to explore recipes with detailed ingredients and cooking instructions.
- Integrated REST APIs to retrieve recipe information, images, and nutritional details.
- Implemented search, favorite recipes, responsive UI, and smooth navigation for a seamless user experience.

TECHNICAL SKILLS

Programming Languages: Python, Dart, SQL, JavaScript

AI & Machine Learning: Scikit-learn, TensorFlow, Machine Learning, Deep Learning, NLP, Regression, Classification, Feature Engineering, Data Preprocessing, Model Evaluation, ANN, CNN

Flutter Development: Flutter, Dart, Firebase Authentication, Cloud Firestore, REST APIs, JSON, Responsive UI, MVVM Architecture, State Management

Databases: MySQL, SQLite, Firebase Firestore

Data Analytics: NumPy, Pandas, Matplotlib, Seaborn, Data Cleaning, Exploratory Data Analysis (EDA)

Tools & Technologies: Git, GitHub, FastAPI, Streamlit, Jupyter Notebook, Android Studio, VS Code, n8n, Make.com

Soft Skills: Problem Solving, Analytical Thinking, Communication, Team Collaboration, Time Management, Adaptability

CERTIFICATIONS

Crash Course on Python	Google (Coursera)
Data Science Bootcamp	IEEE MUET
NFTP Technical Certification	NFTP

LEADERSHIP & ACTIVITIES

Technical Coordinator	AWS Cloud Club MUET
Vice Captain	Green Youth Movement Club MUET
